

# Application EN 12101-2:2003 for Product certification

This application will be followed by a general agreement of certification between DBI Certification and the applicant, if certification is decided by DBI Certification.

If a general agreement regarding the specific area is already issued, no new agreement will be required.

**Applicant:**

|                |  |
|----------------|--|
| Company name   |  |
| Address        |  |
| Contact person |  |
| Phone no.      |  |
| E-mail address |  |

| To be filled in by DBI Certification |      |
|--------------------------------------|------|
| File no.                             |      |
| Certificate no.                      |      |
| Certification decided:               | Date |
| Signature:                           |      |
| Signature:                           |      |

**Applies for certification of constancy of performance with the following Essential characteristics:**

- Nominal activation conditions/sensitivity:**
- Initiation device
- Opening mechanism
- Response Delay (response time)**
- Operational reliability:**
- Reliability
- Wind load
- Effectiveness of smoke/hot gas extraction as Aerodynamic free area**
- Performance parameters under fire conditions**
- Fire resistance – mechanical stability**
- Ability to open under environmental conditions**
- Reaction to fire**

**List of products to be certified:**

| Product reference (name/number) | Place of production |
|---------------------------------|---------------------|
|                                 |                     |

**Required documentation** (In copies):

- Product specification(s)
- Chosen test laboratory or type test reports from already tested products, included any sampling reports.
- General description of production flow (inclusive production testing points).
- Product data sheets/Product specifications.
- Technical documentation - Installation manuals, drawings, part lists, schematics, etc.  
Normally corresponding to list of documentation from test report.
- Layout for label and Declaration of Performance.
- If changes has been implemented after type testing, change description and relevant changed technical documents.
